

# The Trumpeter and the Tartars

The Tartars invaded Polish lands in the 1200's almost 800 years ago!

Much has changed since then, but we still do many of the same things, only differently

Compare then and now.

THEN...

NOW...

---

How are people warned of danger?

Who invaded the Polish lands?

What were the weapons they used?

What were their means of locomotion?

How do people tell the passage of time?

What everyday events people need to  
be warned about?

Where does one have to be to see the  
whole town?
